The Incident

Date and time discovered:
02/08/2021

How was the incident detected? (E.g., user report, monitoring system alert)

SOC Alert / Suspicious Email Analysis Challenge (LetsDefend).

Detailed description of the incident (include what occurred, where, and how):

- A malicious email was sent from yanting@united.com.sg to admin@malware-traffic-analysis.net with the subject "united scientific equipment".
- The originating IP address is 71.19.248.52, located in Canada. The email contained an attachment named united scientific equipent.exe.
- Hash analysis of the attachment (SHA256: 9909753bfb0ac8ab165bab3555233d03b01a9274a92e57c022f87ccbe51ca415) via OSINT tools confirmed it is a malicious payload classified as a Trojan (Loki/AgentTesla).

Was the incident ongoing at the time of report?

☐ Yes ☒ No

Have any files, accounts, or systems been compromised?

☐ Yes ☒ No

If yes, please describe:

Notification

Was your supervisor or manager notified?

☒ Yes ☐ No

Date/time of notification:
April 5, 2026

Was the IT/security team alerted?

☒ Yes ☐ No

If yes, who was contacted and how? (e.g., email, phone, ticket)
Security team via LetsDefend lab portal/ticketing system.

Containment Measures

What immediate actions were taken to contain the threat? (E.g., system shutdown, network isolation)

The email and its attachment were isolated for static and dynamic analysis. Mitigation recommendations include blocking the originating IP (71.19.248.52), blocking the sender domain on the Email Security Gateway, and blacklisting the file hash on the EDR/Antivirus solutions.

Were any user accounts disabled, firewalls updated, or services suspended?

☐ Yes ☒ No

If yes, provide details:

Impacted Services Measures

List any systems, devices, or applications affected by the incident:

Estimated number of affected users, if applicable:

1 target user (admin@malware-traffic-analysis.net).

Was there any known data loss or exposure?

☐ Yes ☒ No

If yes, describe the type of data (e.g., personal info, credentials, financial):

Preliminary Analysis *(Optional)*

Suspected cause or entry point (e.g., phishing email, unpatched software):

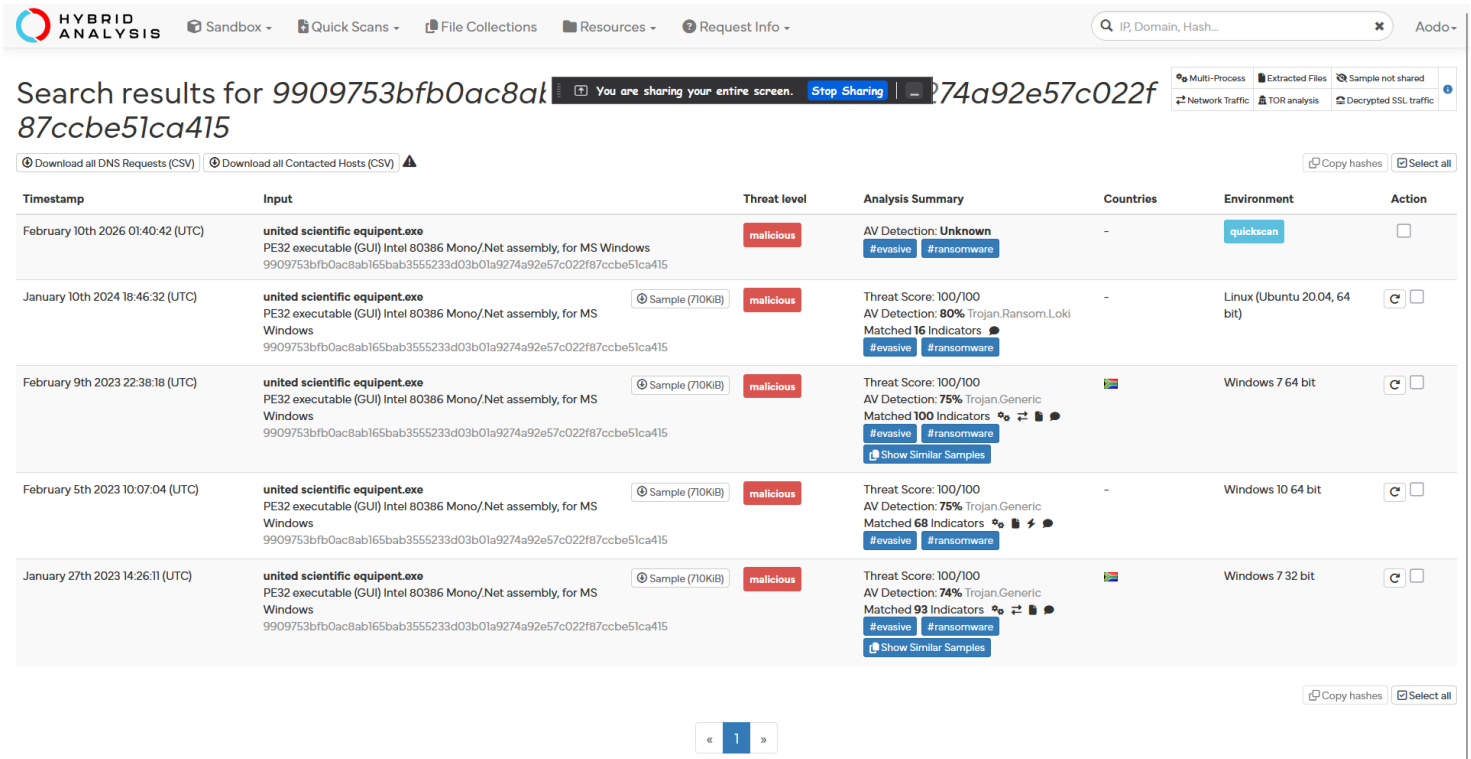

Phishing email carrying a malicious executable payload disguised as an invoice document.

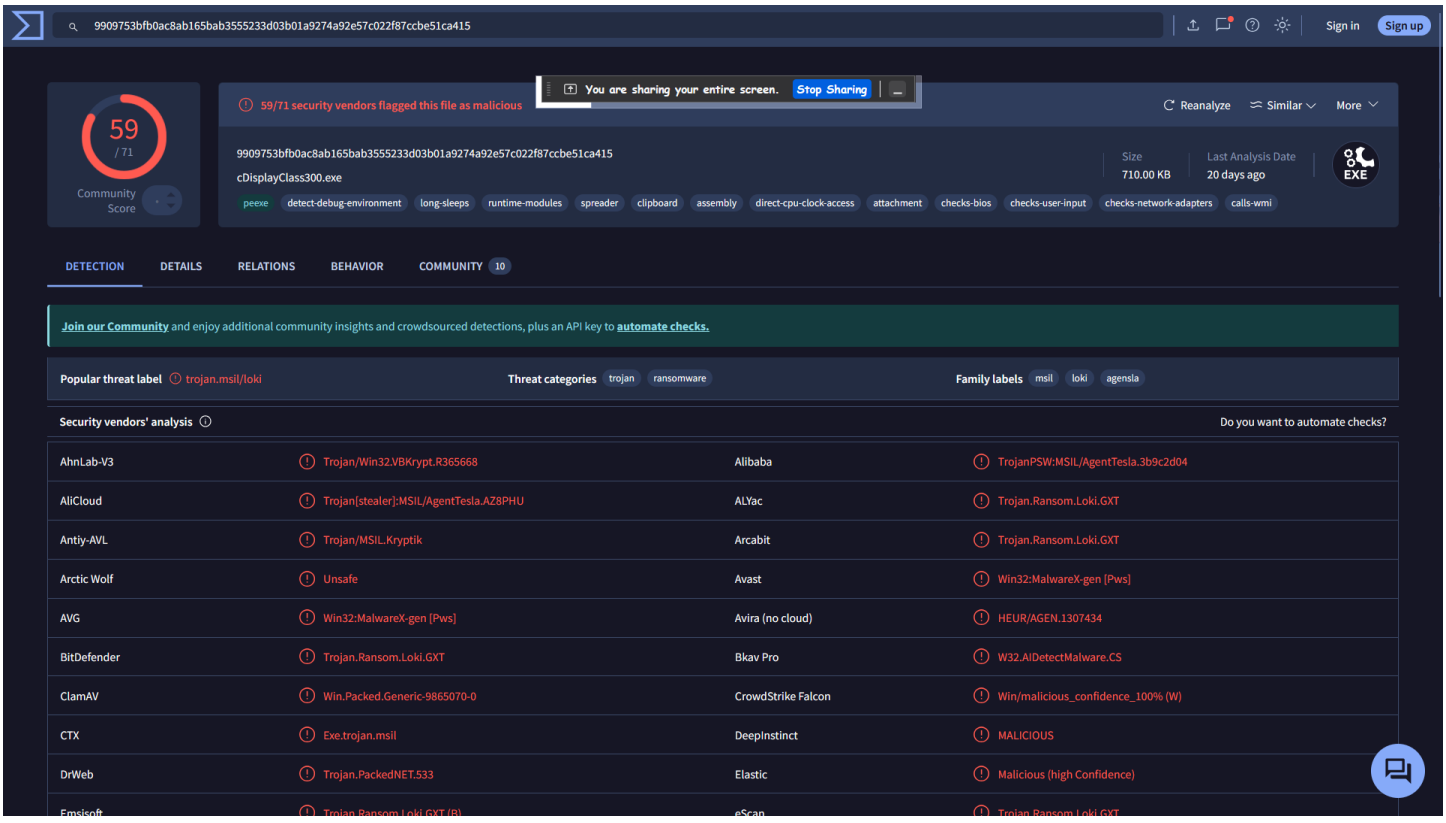

Was the threat internal, external, or unknown?

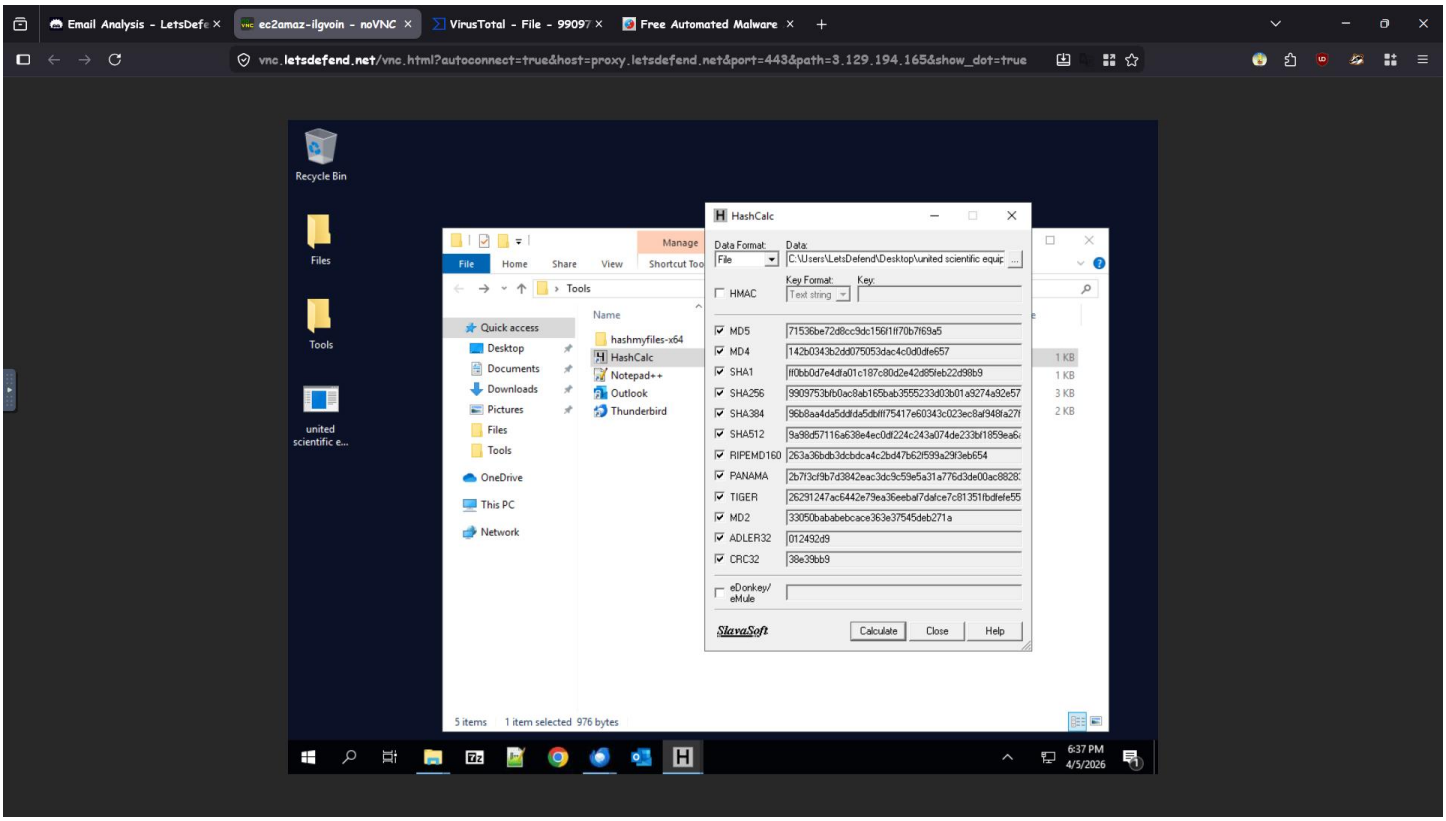

☐ Internal ☒ External ☐ Unknown

FW: Swift Payment Copy - Incorrect Bank Details provided
Good Morning,
Friday last week, we received your proforma invoice from your colleague for prepayment for our order. While arranging payment, we noticed that the bank details are different from your old one.
Also when I try to reach your colleague, the email never gets replied. I suspect something might be wrong with his mail box.
Please find the attached payment slip draft from our bank and confirm that the bank details are correct.
I am writing with our second company email box because we believe someone is blocking our emails to you from your main domain.
The invoice is also attached for your reference.
Waiting for your kind reply.
Thank you.
Best Regards,
Yan Ting (Ms)
